

①
Dear Dr. Bongle, Mrs. Marsh,
Adler School, and AFA parents,

My name is Sasha and I'm in Mrs. Marsh's 3rd grade class. I live near Libertyville Downtown, and I like to do things around our town. I like to go to the parks, the library; I really like My Favorite Place and the movie theater. I really like going there with my family, and the people who work there are really nice. It made me really sad, when I found out that the movie theater might get torn down.

I REALLY don't want it to get torn down, and I was hoping that maybe our school could do something to help save it. Some ideas I have that we can all do to help are:

- ① Go to the movie theater with your friends and family!
- ② Write letters to the theater and the village.
- ③ Go to the public meeting on Oct. 28th, to show support and ask that it doesn't get torn down.

(2)

- ④ Go to the theater as a class for a field trip. We could go to watch a fun movie, or teachers could even bring educational movies to watch as a class.
- ⑤ Go to the theater to watch a slide show of our school year and have a pizza party there at the end of the year.

I know that other students will have great ideas, too! Please help me spread the news to the students and teachers, so we can find a way to save our local theater together!

Thank you for reading my letter and for your help,

Sasha
